YOU'RE BOOKED! The Blueprint to Booking Commercial Work as a Makeup Artist

Kudos from Clients

Dave Baerg | Mighty Storytelling Productions

Recommending Cristy Guy is like going to Disney World. I can say this because I worked at Disney World and know of their expertise in guest satisfaction and value. Cristy is no different in her expertise and attention to detail. When she is on the job, I have less to worry about because I know she will provide the highest quality service to the project.

Shaun Cloud | Scene 2 Camera Crew

Cristy is an extremely well-rounded and creative individual. She's the perfect complement to my business because she brings so much to the table. I've had the privilege of working with her and hiring her for several years and I'm still learning from her and impressed by her. I absolutely recommend her.

Nick Haines | Kansas City PBS

Cristy is a conscientious and capable team player, who never just "tick's a box." She always brings something "extra" to every project. She understands that her craft is about more than just makeup.

Craig Johns | Freelance Producer

I could not recommend Cristy more. She is an excellent makeup artist. My client's always love her work, and I'm always relieved when I have Cristy on our sets. She always over delivers and remains calm and courteous to all clients, talent and crew. Her communication, presentation and attitude are all indicative of her true professionalism.
